FEATURES

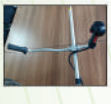
GRASS BEVEL GEAR
The bevel gear is engineered to deliver high torque, ensuring that the cutting equipment remains parallel to the ground for optimal cutting performance.

BALANCED COMFORT
Our ergonomic harness offers broad back support, shoulder straps, and a hip belt, effectively distributing the load across a wider area for enhanced comfort.

OPTIMIZED CENTRE OF GRAVITY
Enhanced balance is achieved by positioning the fuel tank in front of the engine.

EFFORTLESS CUTTING EQUIPMENT SWITCH
A magnetic locking pin holder simplifies the process of changing cutting equipment.

EFFICIENT SMART START®
The engine and starter are designed for quick and effortless starting, reducing starter cord resistance by up to 40%.



ERGONOMIC DESIGN
An angled handlebar and comfortable handles provide an excellent grip and working position.

ADJUSTABLE HARNESS HOOK EYELET
The eyelet is adjustable to achieve the ideal balance for your needs, enhancing user comfort and control.

EFFICIENT FUEL PUMP
Our specially designed fuel pump ensures effortless starting.

VERSATILE COMBI-GUARD
The cutting attachment combi-guard can be used with either a grass blade or a trimmer head.

FUEL TANK WITH METAL FUEL TANK PROTECTER.
A transparent fuel tank allows for easy monitoring of the fuel level and metal protecter will protect the fuel for any damage.

COMFORTABLE SOFT GRIP HANDLE
Handles with soft grips for optimum comfort during use.

EFFECTIVE LOWVIB®
Anti-vibration dampeners effectively absorb vibrations, reducing strain on the user's arms and hands.
